## DIVING IN MALDIVES

The Maldives is a low-lying nation with dreamy white sand beaches and excellent reefs with an abundance of marine life.

Inside the atoll lagoons, rock pinnacles – thila – rise up from the depths to scratch the water's surface. In the channels there are swim-throughs, caverns and overhangs festooned with colorful sponges, invertebrates and gorgonians. At cleaning stations, wrasse and shrimp service manta rays, with giant turtle and whale shark sightings common.
