ABOUT RESORT

Sipadan-Kapalai Dive Resort is laid out like a beautiful village rising out from the ocean. You can watch thousands of fish flit beneath your feet as you walk to breakfast or jump on a boat and be scuba diving within minutes. This resort offers a full array of amenities to make your stay a comfortable one.

ROOM

Sipadan-Kapalai's wooden chalets are all aircon twin share or triple share with carefully constructed balconies that offer plenty of privacy for sunbathing or simply contemplating the great big ocean. These chalets come in a number of design styles but are of the same class. All rooms have bathrooms ensuite toilet and basic toiletries.

FACILITIES

Meals are served buffet style in a large open aired terrace with panoramic views of the sea. Divers can also grab a drink on the sun deck to chat and share videos of their dives, or socialize in the resort's game room. Sipadan-Kapalai Dive Resort also offers Internet access and satellite phones so you can stay in touch with friends back home. Obviously there's plenty of fun to be had in the water and the resort's dive centre is happy to help you with your kayaking, snorkelling, and diving gear.

ABOUT SIPADAN

This area is one of the most bio-diverse regions in the world and boasts of over 3000 fish species and several hundred reef species. Located in Celebes Sea and just an hour's ride from mainland, Sipadan Island is Malaysia's only oceanic island.

The nutrient rich currents entering this area attract almost every member of marine food chain including small fish, large fish, sharks and turtles. There are numerous dive sites in the close proximity of diver resorts and all can be accessed fairly easily through boats. Turtles are the most common species in Sipadan and can be seen in every dive site. Sipadan is the best place to see larger species.

Lucky divers can expect to run into hammerheads or thresher sharks occasionally.

The three major diving area are Sipadan, Kapalai and Mabul.
